DESIGN

Data visualization is to make complex data sets more accessible, intuitive and easier to interpret. The Graphs and Charts used in here for visualisation will be more understanding at a quick glance.

DEFINITION OF POPULATION

A population is all the organisms that both belong to the same group or species and live in the same geographical area. In sociology, population refers to a collection of human beings. Demography is a social science which entails the statistical study of human populations. This article refers mainly to human population.
